BIOMECHANICS THE MACHINE INSIDE

Biomechanics | New Exhibition

Until May 7

This new exhibition reveals the incredible innovation behind evolution and adaptation through real specimens, lifelike models and interactive experiences. Find out how all living things - including humans - are machines built to survive, move and discover!

Biomechanics: The Machine Inside was developed by The Field Museum, Chicago, in partnership with the Denver Museum of Nature & Science, with generous support provided by the Searle Funds at The Chicago Community Trust and ITW. Knowledge Partner: University of Waterloo. Media Partner: Toronto Star.

770 Don Mills Road
Toronto, Ontario M3C 1T3

BIOMECHANICS PROGRAMS

- Loco Motion!** Watch a shape-shifting performer mimic animal locomotion, and gain a new appreciation for how animals are equipped to thrive.
- Dexterity Duel** Think stacking cups is a breeze? Try it while wearing fleece mitts, rubber dish gloves or oven mitts and see how your ability changes!
- Get a Grip!** Let the natural world feed your imagination! Become a biomechanics engineer and make a gripper that is inspired by a bony fish's tail!
- Research Live!** Provide researchers with valuable information about hand-eye coordination, fine motor skills and balance control by completing a variety of tasks!

SCIENCE DEMOS & SHOWS

- The Energy Show** Get ready to experience a seven-foot Tesla coil, a hair-raising Van de Graaff generator, flaming bubbles and more in this new theatrical presentation!
- Papermaking Demo** Transform plants and cloth into paper. Watch the papermaking demo, then take home the instructions and try it yourself!
- Science HotSpot** Plug into live presentations about current science, including cutting-edge research from the University of Waterloo.
